Important Monster® performance & safety tips

Be aware of your surroundings and use Beats headphones responsibly.

Do not use Beats headphones when it is unsafe to do so: while operating a vehicle, crossing street crosswalks, or during any activity that requires your full attention and ability to hear.

The safety of your ears is in your hands

Get the most out of your equipment by playing it at a safe level—a level that lets the sound come through clearly without annoying distortion, and most importantly, without affecting your sensitive hearing.
